

MINI GRANULATOR

- Compact
- Quiet Operation
- Long Life, Knives can be sharpened
- Easily Maintained
- Safety Interlock

The Mini Granulator from Dynisco Polymer Test is ideal for lab preparation of molded or extruded parts into granules suitable for melt index or capillary rheometer tests. The Mini Granulator has power enough to granulate whole PET bottles at a single pass. The Mini Granulator is quiet and compact to fit the laboratory environment.

To Order: Specify **GRAN** (220VAC, 50/60HZ)
